

Specification Data Sheet

Product: **Premium Grade PVA Adhesive**

Description: **Premium Grad PVA Adhesive** is a 50% solids polyvinyl acetate emulsion containing reactive groups. It is a specially designed adhesive with increased water resistance, good heat resistance, good resistance to static load and very fast curing on RF machines. Also works well on hot and cold-press applications. Product is also characterized by its easy cleanup.

Performance Properties:

- *Good heat resistance.
- *Easy Cleanup
- *Good resistance to static load.
- *Very fast setting.
- *Excellent water resistance

Supply Specifications:

Color:	White
Solids:	50% +/-1%
Viscosity:	6000 cps
pH:	2.5-3.5
Film:	Dry, hard
Shelf life:	6 months (In a closed container)
Clean up:	Good
Freeze resistance:	Protect from freezing!
